FOR THE PRESENT

Davitt and Healey's Treatment in Kilmainham Prison
 -The Spread of Nihilism Among the Russian
 Army Officers-The Starving Districts of
 Ireland-A Lost Vice Etc. Etc.

PARIS, February, 9.—The tribunal has quashed the indictment against Prince Napoleon, who was released from custody at three o'clock this evening. The prince returned to his residence on Rue de la Chaussee d'Antin. Felix Pyat has recommended the publication of the communist journal, *Le Vengeur*, in which, in 1871, he demanded the overthrow of the column vendome, the destruction of M. Thiers's residence, and the demolition of the expiatory chapel. He now violently attacks the senate.

LONDON, February 9.—Intelligence has been received here from St. Petersburg that the Russian minister of war was recently advised from Tiflis that nihilistic ideas had been manifested among the officers of the army of the Caucasus, and that serious inquiries being

proved the correctness of the information, the incriminated persons were arrested. Some agitation, revealing positive signs of disaffection, is also reported among the Ural Cossacks.

A JURY CHALLENGED.

DUBLIN, February 9.—In the trial of William O'Brien, editor of the United Ireland, to-day, A. M. Sullivan M. P. who is defend-

ing the accused, challenged the whole jury on the ground that the sheriff neglected certain necessary formalities in summoning. Trier was sworn to decide the question and the decided against Sullivan.

DAVITT AND HEALEY IN PRISON.

Special to The Constitution.

Messrs. Davitt, Healey and Quinn will be treated as first-class prisoners during their confinement in Kilmainham jail.

FOUR MEN KILLED.

Special to The Constitution.

LONDON, February 9.—An accident occurred to-day in the shaft of the Severn tunnel works, by which four men were killed outright and several others were so seriously mangled that it is expected they will die.

STAVING IRELAND.

Special to The Constitution.

DUBLIN, February 9.—Two thousand stars

ing persons yesterday surrounded the hotel in Glen Columbkil, of Mr. Woodhouse, poor law inspector, and demanded employment. The inspector, in answering, admitted that there was distress in the county of Donegal, and advocated emigration, when some one in the crowd exclaimed: "We would rather die than emigrate." Destitute fishermen have been admitted to the workhouse in Kinsdale.

RUSSIAN NEWS.

ST PETERSBURG, February 9.—The removal of the court from Gatschina to the capital has given a little more animation to the society of St. Petersburg. Eighteen balls and receptions

LEO HARTMANN'S TALK.

A Nihilist Who Talks at a Safe Distance About Nihilism in Russia.

Special to the Constitution.

PHILADELPHIA, February 9.—Leo Hartmann, the Russian nihilist, who arrived in this city

on Wednesday, in company with six other men, four of whom are known to be Russians, in an interview have spoken somewhat freely relative to the revolutionary movement in this country. He stated that the movement had been suppressed, and declared that the coronation of the czar would not take place on the 27th of May, as anticipated. The reason was that the latter could at present move from one point to another in safety, was because each district he passed through was under complete police surveillance, and filled with spies. The

nihilists had thus far permitted the czar to live simply because they had failed to reach him. Hartmann declines to go into details as to how the movement was conducted, saying that it was necessary to keep everything quiet, as his people were constantly under the eyes of spies. The horizon of western Europe was darkening and the hour for action was near at hand. Krapotkin was not really the kind of a nihilist. These

prisoner dispersed. The sheriff was supported by three or four deputies during the fight.

THE GRAYTON PRISONERS.
GRAYTON, Ky., February 6.—Yesterday morning at 10 o'clock the Graytons, Neal and Craft, who are kept at the military camp, were marched to the court house under strong guard of soldiers. Neal's attorneys filed a petition for writ of habeas corpus, a continuance. The case was then postponed to next Monday morning. In the afternoon Neal filed affidavits for postponement and the case was set for Monday. Craft's counsel appeared ready, and fought hard against the application of the prosecution, but was unsuccessful until the case was passed over till this morning. The court house was crowded, but there was no excitement.

GAYNED AND ROBBED.
ROCKFORD, Ills. February 9.—Last night two robbers broke into the house of Wm. McGregor, a farmer, living seven miles south of Rockford. The robbers, who were armed, gagged his wife and robbed them of a small sum of money. McGregor and his daughter are not expected to live.

THE BUSINESS WEEK.

NEW ORLEANS, February 9.—The monthly report of the national cotton exchange, as issued by the Cotton Institute of America, shows the cotton movement of the United States from September to the close of January, gives the overland movement direct from production to foreign ports, as follows: 1,069,914 bales to mills direct, 300,243, against 335,447; January shipment to mills were 79,390 bales, against 68,589 last year, and 66,887 the year before. The foreign shipment was 1,069,914 bales, against 1,173,242 last year, and 1,066,914 the year before. The spinners took in January 230,771 bales against 163,324 last year, and 163,324 the year before. The exports were 26,785 against 21,238. In transit over the close of January 15,202 against 15,202 at sea between ports 32,949 against 32,949. Port receipts 1,069,914 against 1,069,914. The following are corrections for the month of January in port receipts as telegraphed to exchange, to be added to Baltimore, 6,187; New Orleans, 1,069,914; Philadelphia, 306.

THE WEEK'S FAILURES.
New York, February 9.—The business failures of the past week throughout the

United States and Canada as reported to R. G. Dun & Co., mercantile agencies, number 275, a reduction of 30 from last week. The New England states had 26, southern 63, western 85, middle 48. Pacific coast states and territories 15, New York city 4, Canada 24.

THE MANCHESTER MARKET.

MANCHESTER, February 9.—The Manchester Guardian's commercial article says: "All departments complain of a lack of demand. Producers, however, in view of the firmness

THE GRAIN CIRCULAR.

LIVERPOOL, February 9.—The leading weekly grain circular says: Wheat continues extremely firm. All positions are again higher and most markets are a shilling dearer, both for English and foreign, with more general advance. Corn is dearer on coast and for arrival and is held for advance. Wheat's market is better than yesterday's at a further advance of one penny to two pence. Flour is in active request at previous full rates. Canadian peas, in view of the probable restricted supplies advanced two pence to three pence. Corn sold free at one and a half pence to two pence over Tuesday's rates.

IN MINING LANE.

LONDON, February 9.—In Mining Lane trade was steadier with but little speculation. Rio coffee to arrive was 55 per cent. at the extreme depressions. Fine plantation Ceylon was one shilling to two shillings higher. Sugar was quiet. West India was steady. Auctions of common China tea again favored buyers. Better qualities were rather firmer. Rice was firmer. Spice was better.

LIVES LOST

By Shipwreck, Explosion and Railway Run-Offs.—An

SAN FRANCISCO, February 9.—The stern wheel steamer Gem, plying between Leatlle and Union City, Washington territory, was burned in the sound yesterday, and five lives were lost. All five sought escape by boats, but the boats went adrift and the lost

persons jumped into the water hoping to reach shore, but failed. The captain anchored the boat about five miles from shore, and the survivors assembled on the boat, whence they were taken by boats from the shore. The boat was a small stern-wheeler, Detroit, Mich., February 9.—B. J. Grier's saw mill at Charlotte, blew up this morning instantly killing the proprietor and William Grier, his son.

St. Louis, February 9.—A Post-Dispatch special says: Peter New, a wife of five men, killed at seven o'clock this morning by boiler explosion in a tile factory at Taylorville, Illinois, and Henry New, a nephew of Peter, is in a dying condition.

St. Petersburg, February 9.—A member of the crew of the ship "Albatross," which was on the Charlotte and Savannah railroad, was thrown from the track last night by running over a cow. James Johnson and Andrew Jenkins, brakemen, were thrown beneath the track and instantly killed.

TWO NEGRO MEN KILLED

Augusta Moving for the River and an Appropriation.
Special to The Constitution.
AUGUSTA, February 9.—The Georgia and Central railroads have made low excursion rates to Augusta for the races next week. The prospect for a large attendance is good. A train on the Charleston and Savannah railroad ran off the track near Yanage last night.

to induce congress at the next session to grant a larger appropriation for improving the navigation of the Savannah river, both above and below Augusta, also to have a United States national office, court, customs, and revenue offices located here. Memorials on the subject will be prepared in time. Receipts of cotton are increasing daily and the price is rising. It is now believed the total receipts at Augusta this season will be not much under 200,000 bales.

Nihilists in Council.

PHILADELPHIA, February 9.—Leon Hartman, the Russian nihilist, came here from Washington last night, and had an all night conference with Herr Schuchman, another socialist, arrived this morning, and another conference took place. Herr Schuchman is a Russian nihilist, and the socialists arranged for another conference this

Suit for Damages.

SPECIAL TO THE CONSTITUTION.

ERIE, Pa., February 2.—Doctors Reed and Wiley, of the Dixmont insane asylum, have used the Erie Herald for defamation of character, laying the damages at \$40,000. The suit grows out of articles published by John Wiley, writing on the management of that institution, based on statements of Dr. Edwin, an ex inmate of the asylum. The management deny the charges and claim the doctor is still enraged.

Attempted Suicide in Athens—Death of a Rich Negro—Child Bitten by a Savage Dog—The Gordon Monument—Railroad Casualties—Sudden Death on a Train—Cousa River Trade.

Special to the Constitution.
MAON, February 9.—A negro man was arrested here this morning suspected of perpetrating the great robbery at Dohy's land, near Darien. Eight hundred dollars were recovered from him. The police are on the track of several hundred dollars more which he had spent. He had several one hundred dollar bills changed at different stores, and borrowed five dollars of a colored store keeper named Moses Pollock, who could not change a one hundred dollar bill, and left it as collateral. He bought a forty-five dollar watch. The negro says he found the money. City Clerk Bled and Policeman Moore have gone to Darien to-night.

Unexpectedly the election resulted yesterday in sixty-seven majority for fence. The vote was fence 626, no fence, 559. Warrior district went 116 majority for fence, deciding the matter there. There is much talk of contesting the election. The no fence men loudly proclaim fraud, and illegal voting. The county voted heavily for fence, and the city voted lightly for no fence. Five boys raised a fuss last night at a house of ill repute. Four of them and two women were arraigned in the police court to-day. The women were bound over in fifty dollars to the county court, and the boys were held over until the morning, waiting to arrest the ring-leader, Owen Cowley. He was arrested this morning, and gave the policemen a heavy fight, having knocked two down twice. He was finally carried to the barracks on a drag.

A GRIEVOUS NEGRO.
 York Bradford, a negro, pleaded guilty to the charge of cheating and swindling. The county court fined him \$40 or four months in the chain gang. F. J. M. Daly was counsel for the defendant and Solicitor-General Hardeman for the prosecution. Bradford was given four dollars to buy a coffin for a negro woman. He spent two dollars and a half for a pair of boots and the balance in whisky. He then made piteous appeals to the county commission, but they refused. He was a pauper, and got an order for a coffin.

S. A. Darnell, United States district attorney, says the time for holding the Savannah and Macon circuit courts may be changed. The Savannah court will be held on the second Monday in April with six week's business. The Macon court on the first Monday in May, a lapse of two weeks between the opening of both sessions. It is thought that the Macon circuit session will remain as it is, and the Savannah circuit will be thrown back into March. The business of the Western circuit is increasing. Miss Annie, daughter of G. W. F. McKay, was married last night to Charles S. McCarty, a local man.

Mr. Jeff Mitchell, an excellent farmer of Jones county, living at Mitchell's ferry, on the Ocmulgee river, loaded a wagon and started home. The wagon was found standing on the road and Mitchell lying on the roadside dead. Near the body crouched his favorite dog, watching. It is supposed that he fell from the wagon, and the wheels passing over the body caused the fatal injury. The dog had to be driven away before he surrendered his watch over the corpse.

THE DETAILS have been completed for a fireman parade on April 10th. The Macon volunteers, in full dress, paraded to-night before going to the sequi-centennial.

SENTENCED TO SWING.

John Thomas, a Negro of Campbell county, sentenced to hang for murder.
Special to the Constitution.
FAIRBURN, February 8.—Covetta circuit is making a record. Last June two men were hung in Carroll county for separate crimes one is now under sentence of death in Meriwether, and last night the jury in the case of the state vs. John Thomas, charged with murder, rendered a verdict of guilty without recommendation. The three former were white men, the latter a negro.

The history of Thomas's crime is the old story of two much Christmas whiskey and pistols. On the morning of the 25th of December last Thomas went to Palmetto to have a "good time." He imbued rather freely, and soon afterwards met Lindsey Weaver, whom he saluted roughly, and demanded a Christmas gift. Weaver told him to go away, that he did not desire to have anything to do with him, and passed on. Thomas followed, cursing and threatening to take his life. In going by Calhoun's bar some one put him in the way to stop the difficulty, but upon Calhoun's remarking that there was no danger in him—that he wouldn't kill anything larger than a rabbit, he was turned loose, went out of the house and on down the street. The jury, after an hour sitting on a bench in front of Golightly's store. When Thomas approached and asked if he was ready to die the deceased told him he was ready to die, and at the same time drew a pistol and shot Weaver through the breast. The deceased fell forward against Thomas, knocking him down and falling on him. Weaver's brother ran immediately to him and raised him up, just as he was gazed his dying breath. Thomas was arrested and sent to Atlanta for safe keeping. Yesterday morning he was placed on trial in the superior court of Campbell county, when the above facts were substantially established. The jury, after a case of thirty minutes, returned a verdict of guilty as above stated.

To-day at 12 o'clock the sentence of death was passed on him. The condemned man received the news with a stoic calm, and slightly forward. He is a mulatto about thirty years of age, and weighs about 135 pounds. The 6th day of April next is the day set for the execution, which is ordered to be in private. Thomas's counsel gave notice of an intention to move for a new trial. The prisoner was to-day conveyed to the Atlanta jail.

HE DREW HIS RAZOR.

A Chattahoochee Negro Cuts His Pathless Wife's Throat and then Gashes His Own.

Special to the Constitution.

CHATTANOOGA, February 9.—This city was the scene of a bloody tragedy this afternoon. For some time Tom Wiggins, colored, an ex-policeman, of late acting as supernumerary on the police force, and his wife, have not been getting along very well. Many quarrels and misunderstandings have taken place. He had suspected her of infidelity and kept watch on her actions. She had among her dusky admirers a colored preacher named D. Hoyt, of whom Wiggins had become very jealous. About 6 o'clock this evening the husband, going unexpectedly into his house, discovered his wife and the preacher in the criminal act. D. Hoyt bolted the house on seeing the husband enter. Wiggins drew a razor, and seizing his wife,

inflicting a gash three or four inches in length. The wife rushed screaming into the street, followed by her frenzied husband. She fell bleeding on the street. THE ALABAMA MAIL ROBBER.

Supposed to be of Unusual Mind—The Missing State Treasurer.

Special to the Constitution.
MONTGOMERY, Ala., February 9.—W. A. Childs, the alleged mail robber, keeps a fine music and fancy goods store here. He made an assignment to-day to Thomas H. Watts, junior, for the benefit of all concerned. His liabilities are about twenty-five hundred dollars, and his assets are fully \$10,000. A railroad bridge was burned yesterday, near Chehaw, Alabama, on the Western road, preventing trains from passing for several days. The legislative special investigation committee on the absconded treasurer is still at the examining witnesses, with a result already known.

COTTON RECEIPTS.

Cotton receipts this week, 2,300; to date, 121,000 against 91,000 last year.

SUDDEN DEATH ON A TRAIN.

A Run-Off on the South Georgia and Florida Train—No Serious Accidents.

Special to the Constitution.

ALBANY, February 9.—A passenger on the train from Eufaula to Macon died suddenly at Ward's station. He was a consumptive, and from papers on his body his name was ascertained to be Louis Arnold, of Fort Scott, Kansas. His remains were brought to Albany, and his mother was telegraphed to. He was apparently thirty years of age. He had about one hundred dollars on him.

RAILROAD CASUALTIES.

There was no mail or down train from below to Albany to-day, the sound of the engine of the South Georgia and Florida road, three miles this side of Thomasville. In an accident to the New Orleans fast express, which left here forty minutes past four this morning, an engine and four cars ran off the track. No serious accident occurred to the persons on board.

ATTEMPTED SUICIDE IN ATHENS.

Death of a Rich Negro—Hazy and Failure—A Prisoner's Leap.

Special to the Constitution.

ATHENS, February 7.—L. J. Lamplink's store was burglarized last night. Bob Harris, negro, a city lamp lighter, was arrested, for stealing a pair of trousers from the store. Harris jumped from the court room while being tried but was recaptured. Lamplink's store was the first in New Orleans.

A PROMINENT MERCHANT had to be restrained by force from committing suicide. Alfred Kenney, the richest negro in Athens, is dead. He had houses, and money at interest, all which he made by cutting up wood in Athens.

THE COOSA RIVER TRADE.

The Cargo of the Steamer Gadsden—Rome's Cotton Receipts.

Special to the Constitution.

ROME, February 9.—The steamer Gadsden left her wharf this morning with the largest cargo of general merchandise ever carried down the Coosa. The steamer Smith, left in the afternoon, loaded to the gunwales with guano. The river trade is growing to be immense. The cotton receipts for the week ending to-day are four thousand three hundred and fifteen bales, against thirteen hundred in the corresponding week of last year. A young wholesale grocery merchant of this city will wed an Atlanta lady on the 13th instant.

THE GORDON MONUMENT.

The Gordon Monument—The Entertainment of the Special to the Constitution.

SAVANNAH, February 9.—The city authorities to-day completed their arrangements for the entertainment of the legislators, visiting governors and officials, and the Maryland delegation on Monday night at 9:30 o'clock. The Gordon monument in Wright square was completed to-night and will be finished to-morrow. The guards are guarding two electric lights in their army which will be brilliantly lighted during the centennial. A little child was fearfully bitten by a savage dog this morning on the street, and is in a dangerous condition.

FIRE IN CEDARTOWN.

Five Thousand Dollars Worth of Property Destroyed—The Insurance.

Special to the Constitution.

CEDARTOWN, February 9.—A fire occurred here last night, entirely destroying the store houses of J. S. Noyes and William Phillips & Co. The second story of the latter was occupied by the Cedar-town Advertiser, which lost its newspaper and job office outfit. The fire originated from a defective flue in the building of J. S. Noyes. The following are the estimated losses: J. S. Noyes, stock and building \$3,000, insurance \$800; Phillips & Co., building and part of stock, one thousand dollars, covered by insurance. Advertiser office \$1,700, insurance \$900.

DEATH OF NATHAN ALLEN.

Columbus People Going to the Sequi-Centennial in Savannah.

Special to the Constitution.

COLUMBUS, February 9.—Mr. Nathan Allen, an old and successful farmer of Marion county, died at his home on yesterday morning, after a brief illness. An aged wife and three married children survive him. A number of our citizens will visit the sequi-centennial at Savannah. The testimony in the Chattahoochee county contested election closed to-day, and the papers will be sent forward.

Fish Culture.

From the Greenboro, Ga., Home Journal.

A good deal of attention is being given to this in middle Georgia, and there are many homesteads where, with little expense, the proprietor could every morning transfer from his pond to the dinner table a fine pan of brook trout. By reference to his advertisement in our paper to-day it will be seen that our esteemed friend Heyser, of Madison, is prepared to furnish carp to those who wish to experiment in fish culture. Heyser has frequently visited this pond, and can inform him as a success on this and other important industries.

Chapman's Pointer Dog.

From the Corvillian, Ga., Enterprise.

Joe Chapman has a pointer dog that will carry heavy bundles from town with as much safety as a boy would do the job. This family is fortunate in having smart canines, as we remember to have seen Roy's favorite hound carrying a ten pound chunk of beef from a neighbor's kitchen one day last fall. The same dog afterwards was seen carrying a tin box in two forty style in the direction of his master's house. It is strange how easily some dogs can be taught to carry things.

THE FERTILE ACRES.

WHERE THE WAVING GRAIN IN PLENTY GROWS.

The Stock and Grain Farm of T. W. Powell and John Davenport—An Enormous Yield—Grain Fields—Stock Feed—The Life of Royal Indulgence—Monarch of All He Surveys.

From the Greenboro, Ga., Home Journal.

The very time for a drive into the country were the early days of the present week. A portion of the Home Journal force thought so at least, and seated behind a pair of spanking ponies, with the sun brightly shining upon us and a gentle breeze blowing in our faces, we were rapidly bowled along over the red roads of Greene. Up hill and down hill we went; here tugging through ruts of mud; now dashing along over a sandy stretch; passing farm houses, half sheltered in groves of oak and pine; over creeks, lined with elder, where the sweet chirp of an early spring songster sounded a kind welcome to the long-hidden sun. A long drive we had of it. Fourteen good miles it was, and just as the sun grew red, and prepared for the rest of the coming night, we drove into a broad road, and up a goodly hill. There, we halted, just in front of a large gate, which was opened by a young boy, and we drove into the yard of Mr. T. W. Powell, the largest stock breeder and farmer in Georgia.

We alighted, and were met at the steps by Mr. Powell and his partner, Mr. John Davenport. It was a cordial greeting the two gentlemen gave us, and being seated on the front piazza engaged in conversation. We shortly fell at ease. Mr. Powell is a little above the medium height, broad shouldered, with keen gray eyes, and light brown hair, and an open, pleasant countenance, indicative of determination and energy. His manner is free and hearty, and in conversation he speaks rapidly and with energy, showing in every gesture the thorough man of business. His partner, Mr. Davenport, is slenderly built, with black hair, slightly disposed to curl, speaks slower than Mr. Powell, and with a well modulated voice. Mr. Powell is about thirty years of age, and Mr. Davenport is about twenty-six.

All this we observed as we were seated in the sitting room. A short time afterwards supper was announced. At this meal we met Mr. Powell, a charming lady, the wife of the young man, and a young girl, who we justly to the abundant and substantial meal spread before us. A few hours spent in conversation and we retired, preparing ourselves for rest, for the morrow's work.

SEEKING THE FARM.

A heavy fog hung over everything as we arose the next morning. It hid the hills to the right, and the stretch of level land to the left. But we crawled into the air, and found all a scene of busy life. Hogs squealing, cows lowing, horses neighing. Mr. Powell was strolling around, leisurely smoking a cigar, giving orders quickly and to the point. The hands had long been at work, and those we saw attended to the stock.

Breakfast over, Mr. Powell's buggy—drawn by a pair of high stepping, genuine thoroughbreds—was driven up, and jumped in we were soon on the road across the fields. As we dashed along the road, we kept the left hand side of the road, and the right hand side of the road. To the right, farther and the eye could reach, lay an open stretch of land; to the left of us, more land; in front of us more; and through the sodded earth the green shoots had started their work.

"What," said Mr. Powell, "I have here a very good stand. It will average me, I suppose, thirty bushels per acre, or the plot here 9,000 bushels of wheat. Three hundred acres in this plot."

The nonchalance with which Mr. Powell spoke of thousands of bushels of grain as if they were no more than single stalks utterly terrified the reporter. But we drove rapidly on and soon reached a hillside. There we halted.

"Quite a fine view," remarked our companion. "Fine? We should say so. Fields everywhere. Power in the air. The space over great sea of tilled land, cut here and there by creeks; out to the right they stretched, and just discernible on the left were the outlines of hills. Four miles, our companion said. The lovely it must be in early spring, when the green grain covers these broad acres, the heads bending and waving with the breeze! We turned from the contemplation as Mr. Powell spoke."

"From here you have a view of a thousand acres. The ground out yonder," pointing to the right, "is planted in oats; that is wheat yonder," the index finger looked straight ahead. "The ground we are on now—a plot of four hundred acres—shall put in cotton to-day. I had it in grain last year. You believe in alternating?"

"Well, yes. I do not think one kind of crop should be raised on the same land every year. The land will not wear so fast. Now, there are certain properties in the ground which go to make cotton that are not required in grain, and vice versa. By planting this year in cotton the ground can recuperate the properties consumed by the grain last year."

We were moving on. Mr. Powell pointed to some pine trees in the field, and said, "I had a fire there last year which came near destroying the entire grain crop of this field. It had all been cut and stacked and a great portion taken to this point to be threshed. But the fire broke out, and the whole was lost. There was not a soul around when my house (which you see commands a view of the entire plantation), I saw smoke suspected fire, and rained my men. We found everything in flames, and we fought the fire for life. A half hour and all would have been gone."

HIS CROP LAST YEAR.

While we were thinking of what that would mean, how many bushels of precious grain, how many dollars it signified, we asked our companion what was his crop last year.

"Don't get it wrong now," he said, smiling. The reporter set the figures down. "I gathered 36,000 bushels of small grain and 10,000 bushels of cotton. I had 100 acres in small grain, that would have averaged fifty bushels per acre, but which I was unable to gather. This would have run it to 68,000 bushels. In addition to what I made myself, I had a million or more crops I worked on halves. My crop last year was 46,000 bushels of grain."

"What was your yield of cotton?"

"I had none, individually, planted," was the response; "but my tenants cultivated some three hundred acres, and the yield from this was about 150 bales."

"In all, Mr. Powell, how many acres had you in small grain?"

"We had thirteen hundred. This year I shall make sixteen hundred."

"You average yield—I do not mean what you gathered, but the product—was fifty bushels per acre. What kind of fertilizers did you use?"

"Composted manure. I did not (nor do I intend to this year) use one pound of commercial fertilizer. I cultivated with a stable manure and German kainit and acid phosphate. On each acre I put two hundred pounds of the compost. The result is highly satisfactory."

"In this plantation how many acres are there?"

"Thirty-nine hundred acres. In cultivation I have about half. The remainder is pasture fields. In Oglethorpe county, on River road, I have about 4,000 acres, but that is planted mostly in cotton. In fact, I call that my cotton farm."

STOCK AND ITS FEED.

As he spoke of pastures it echoed through us, and we straightway said, "You devote much attention to stock raising?"

"Oh, yes. That is one of my big points. I have at present only seventy head of horses

AND MULES, FORTY BROOD MARES AND ABOUT FIFTY HEAD OF CATTLE.

What are your pastures? I mean by that, is forage any part of the crop? Is it common grass or Bermuda?"

"Bermuda. The finest forage in the world. On thirty acres of this grass I made one cutting, which I saved. I made another cutting and had it stacked, and the third was almost ready for cutting when the freshets of September came. They swept away the second cutting and the mud ruined the third. But from the first cutting there was enough hay for seventy head of cattle. I estimated that which was swept away at \$1,000, quite a nice yield from only thirty acres."

"You intend, then, to pasture entirely?"

"Yes. I did not go to the trouble of pulling my fodder last year. I consider the grass so much better as a stock food than I did not think fodder would pay to pull."

"In raising stock, Mr. Powell, which pays better, mules or cows?"

"Mules. Now, take a mare. She can live a pasture the year around. The winter raise you a mule colt which, in two years you can sell for \$75 or \$125, and at no cost. A calf would, in the same time, be worth about \$15 or \$20."

"But how about butter and milk?"

"Oh, that will do on a small dairy farm, but not on a large scale. I sell fifty to seventy-five pounds of butter a week, but I don't count that anything."

"You seem to be not changing the subject in favor of berrying grass?"

"Yes, sir. I look on it as the farmers' salvation. Think of it! People hooted at me when I spoke of it as a stock feed. They said 'kill it, kill it, it's a lot of it! It won't yield anything! And as for planting it, and paying attention to it, the idea seemed preposterous. Especially were the people of Oglethorpe thus. But one day I carried my mower over there and just to show them, I cut from three acres, fifteen thousand pounds of it. They changed their tune, then, and would be glad if my whole farm was soddied in bermuda grass, and I had converted it into an immense stock ranch."

"This grass fattens?"

"Oh, yes. Nothing can be better."

THE CANAL.

"I am building a canal," said Mr. Powell, "which will drain about seven miles of good land. Of that land I own four hundred acres, and it will be the best soil and the most fertile on my plantation. Rose creek, during the floods, backs up from the river and overflows for miles. By changing the course of the stream so as to strike the river lower down I can put all the water to use and spend about a thousand dollars on it, but I hope to make this location not only healthier, but that immediate land very profitable."

IN CONNECTION WITH THE CANAL.

"In connection with the canal," said Mr. Powell, "I have what I call a commissary department. Here I keep anything my hands may wish. To systemize the work, I keep no books, but have here a check book. Here one for every five and ten cents each, amounting in all to the full face. If he wants five cents worth he carries the check to the commissary, gets it, a five is punched and the check is given back to him. He keeps that when the last cent is used as a receipt, and keeps the stub. He can get the money from the commissary if he wants it. The saving is in confusion of accounts."

We were driving yet. We had come out of the fields and the reporter sat silent, wrapped in thought.

Words cannot express the mammoth proportions of this plantation, and yet all works like a clock. The products of the farm last year amounted to about thirty thousand dollars at a cost of about ten thousand. Twenty-five thousand dollars clear!

WHAT HE WILL PLANT.

"How much of the thirty-nine hundred acres will you plant this year, Mr. Powell, and in what?"

"I shall plant twenty-nine hundred acres. Sixteen hundred I have put in small grain; eight hundred I will put in cotton, and five hundred in corn."

This is a gigantic farm. And what a gigantic profit to its owners. Yet what Mr. Powell does in his great way can be done by our lesser planters. All can grow rich. Farming is a business, and yes, as Mr. Powell says, so truly said, the happiest business in the world. With an abundance of everything around him, the broad acres yielding him a yearly fortune, he lives happy and contented in the love of his family and his home. The business of the outside world do not mar the smoothness of his work, but there he is truly "monarch of all he surveys."

Greene county boasts of such men as he. Not for his wealth, but for his energy; his business opportunities; his building up of those agricultural interests which are bound to make Georgia the blessed land of the new world. Others should heed some few words he has spoken. Success has crowned his efforts. He has made his home a model of the golden products of a beautiful earth, would he have been? To all farmers his example is a good one. Those who flourish may be served to continue it; those who have been unsuccessful should learn from him. When a new day dawns with the fertile lands of our state decked with the green herbage of life; when the pastures are filled with horses and sheep and cattle yielding profit to the farmer, and the region of plenty is a fact, we can do without it. W. D. Barker one of our subscribers, writes: "I cannot read, but he says he must have the paper."

NEW YORK NEWS.

EVENTS OF INTEREST IN THE GREAT METROPOLIS.

The Fight Between the "Graph" Companies and the "Old" News. The "Graph" Companies and the "Old" News. The "Graph" Companies and the "Old" News. The "Graph" Companies and the "Old" News.

Special to The Constitution.

New York, February 9.—It is generally believed about town that the difference between the Western Union and the Mutual Union telegraph companies are on the point of settlement, and that the Elevated railroad litigation is to be ended by an agreement reached between the Gould party and the representatives of the Metropolitan. It is positively stated this evening that an agreement between the telegraph companies only awaits signatures. The reported basis is a long lease, the Western Union leasing all the property and wires of the Mutual Union in operation and paying six per cent on its bonds and one and one-half per cent dividend on its stock by reduction of expenses. The Western Union is expected to expect a profit of one-half million annually on the lease. The main points of the agreement, the Elevated railroad are given, but no trustworthy authority. It is thought probable that the Manhattan company will consent to any arrangement admitting the Metropolitan stock to an equal standing. For some time there have been reports that the Goulds between the Western Union and Mutual Union telegraph companies were approaching an adjustment. This statement is said to have emanated from Mr. Jay Gould.

The long looked-for contest of skill between William Steinitz, the Austrian champion chess player, and Captain Mackenzie, who last week won the Manhattan Chess Club. The club had arranged for a series of six games, each to last one day, and the event attracted a large number of the devotees of the game. Steinitz, with blond hair, and full reddish beard, he has a large well developed head, brown eyes, and hands which are small and thin. Mackenzie, who is introduced by the club as a "strong" player, is a man of about thirty years, with a high forehead, and a full beard. He is a man of about thirty years, with a high forehead, and a full beard. He is a man of about thirty years, with a high forehead, and a full beard.

Several dowers stand ready to subscribe liberally to the fund for the establishment of a college for the colored people of the city. It is a very good way of securing social fame and possibly glory. There was to have been a "mill" between Mackenzie and Steinitz, but the latter, who is a man of about thirty years, with a high forehead, and a full beard. A SENSATION
Which Would Not Put Out Worth a Cent.
About midnight last night some pedestrian while
on the corner of Decatur and Pryor streets, dis-
covered a suspicious looking bundle in the door of
Mr. S. W. Goode's real estate office. On top of the
bundle was a placard on which was written in
large letters, "Dead at Birth."
The discoverer of the bundle at once yelled "poli-
ce" at the top of his voice and continued to re-
peat his cry until an officer responded, to whom he
made known his discovery. The policeman kicked
the bag into the street and began to investigate the
contents. Each second the officer expected to find
a dead body, but only trash was extracted from the
bag. When the officer's examination had been
completed he ascertained that the bag had been
filled with trash and placed where it was found by
the janitor of the real estate office, and that some
one who was fond of a joke had seen his chance
and put the placard there.

BY THE
GOVERNOR.

A CALL FOR SPECIMENS OF GEORGIA PRO-

MANUFACTURES.

EXECUTIVE DEPARTMENT,
STATE OF GEORGIA,
ATLANTA, GA., January 4, 1883.

WHEREAS, HERETOFORE TO-WIT, IN THE
month of November last, the following com-
munication was received by me, as Governor of the
State, from the Secretary of the New England Man-
ufacturers and Mechanics' Institute, who will
be open the first week of September, 1883, and
continue until a day in November to be deter-
mined hereafter:

"An invitation of like tenor has been sent to the
Governor of every one of the Southern States. The
purpose of the proposed exhibition is to afford
an opportunity to the States and Territories which
wish for seedlings from the North to present, in prac-
tical shape, examples of the products of the soil
illustrative of its adaptability to the various
branches of planting, farming and horticulture.
The new railway system of the great West will be
invited to make a similar exhibition on the last
route, that the North may thus become for the time
being the arena in which the South and West may
compete with each other for the superior prod-
ucts which yearly leaves New England in search of
homes elsewhere.

"The invitation is forwarded at this early day
that your Excellency may have an opportunity to
consider the subject and to make such suggestions
thereon to the Legislature of your State as you may
deem appropriate. With high consideration, I am
sir, yours most respectfully,
"FREDERICK D. GRIFFIN, Secretary."

And whereas, the above communication was sub-
mitted by me to the General Assembly of the State
at the last session for their consideration and such
action as they might deem proper in the premises,
whereupon the General Assembly passed the follow-
ing resolution, to-wit:

"Resolved, by the General Assembly of Georgia,
That His Excellency, the Governor, be and he is
hereby authorized to invite and receive specimens of
the agricultural, horticultural, mineral and
manufactured products, and of the forestry of this
State, that may be furnished him by the citizens of
this State, for the purpose of forwarding the same
to the Exposition to be held in Boston, Massachu-
setts, in September, 1883.

"Approved December 9th, 1882."

Now, therefore, in the discharge of the duty as-
signed to me by the resolution of the Legislature, I
hereby in this Proclamation give general notice to
the citizens of Georgia that I have put this business
in the hands of Hon. J. T. Henderson, Commis-
sioner of Agriculture of this State, with directions
that he take charge of all the correspondence on this
subject, and that all citizens of the State be and
they are hereby requested to send to him such spec-
imens of the agricultural, horticultural, mineral
and manufactured products, and of the forestry of
this State, as they may be able and feel disposed to
contribute to the exposition aforesaid.

I moreover hereby give a cordial invitation to all
citizens to make such contribution as they may be
able to make, that Georgia in her vast and varied
resources, may be well represented among her sis-
ter States in the Exposition.

The collection thus made by the Commissioner of
Agriculture to be held by him subject to the dispo-
sition of the Legislature at its subsequent session in
July next.
